

CANTON

TEACHERS
ASSOCIATION

George Floyd. Ahmaud Arbery. Breonna Taylor.

These are the names of just the most recent people in the Black community who have died as a result of racism and violence. It has become abundantly apparent that we, as the Canton Teachers Association, cannot remain silent. We stand together in support of the victims of racial injustice and support Black families across America. We do not tolerate institutional racism, social injustice, or systemic oppression. It is our duty to listen to and to educate our students and communities on issues of oppression and racial injustice. Now is the time for us to work together to create a more equal and just world. The Canton Teachers Association stands in support of our students, families, and educators of color. We SEE you, we HEAR you, we SUPPORT you, and we STAND with you.

BLACK LIVES MATTER.
